

National Digital Panchayat Summit

In order to empower governance, Panchayat has to become digitally inclusive and ICT literate. This national summit would showcase hundreds of such Panchayats and the counselors of Panchayat including women how they have adopted digital media showing the benefit of Internet at the village level.

Digital Panchayat is a functional and dynamic digital platform and working station designed and created for each and every Panchayat in India, powered by Internet. The objective is to facilitate and improve Panchayat functioning on day-to-day basis, through two way flow of information and content. The goal is to realize various development objectives at grassroots level.

Digital Panchayat Objectives:

- To empower citizens of every panchayat with bottom up and top down information and content;
- To improve development and governance public service delivery at Panchayat level through information on policy programmes and implementation;
- Create a digital data house at every Panchayat level ;
- To facilitate growth of Panchayat economy through promotion of Panchayat tourism, e-commerce of local produce;
- To put every Panchayat on the global digital map;
- To generate an ICT environment in every panchayat;
- To give fillip to the Right to Information campaign.
