Internet Saathi

Internet Saathi

10000+ Internet Saathis are producing essential items, facilitating the local health centers and generating awareness around Covid-19 both online and offline.

Ground Activities

Internet Saathis have collaborated with the local health centers and administration to produce and manufacture masks and sanitisers along with generating awareness in the community.

The government announced that ration kits will be provided to all daily wage labourers. To help speed up the process DEF co-ordinators conducted a survey to prepare a list of those who are in dire need of these benefits. A kit was created which includes 500 grams cooking oil, 500 grams lentils, 5 kilogram wheat and 1 kilogram rice.

Smartpur center coordinators have created a task force who have got permission from the district collector to help with community outreach, mobilisation and distribution of necessary items like food and medicines.

Since the lockdown has limited the access to most of the important services such as financial assistance, the CIRCs enabled with internet are giving access to information, entitlements and financial services to the villages.

Ground Activities

Community level WhatsAPP groups are created to facilitate information around Covid-19 and to fight fake news and misinformation.

CIRC- ProtoVillage is producing aloe-vera based sanitisers and distributing them to local health centres, police and surrounding villages

Tracking of labourers and migrants is being done who are then identified. With the help of the local authorities and non-profits then they are provided immediate help in terms of food, shelter and health services.

गरीब मज़दूरों को मदद पहुचाने हेतु संपर्क प्रणाली की स्थापना ।
