DIGITAL VILLAGE

Digital Empowerment Foundation has been working for a decade to make underserved rural communities have access to equitable information. By making use of digital tools like wireless technology, mobile phones, computers and other ICT tools, DEF creates an ecosystem of digital villages with access to tele-health services, digital panchayats, information kiosks, rural tourism and schools with digital labs, among others.

Community Information Resource Centre
Digital Access, Information & Empowerment for All
Rural Dip
VILLAGES OF INDIA NETWORK

CIRC

Mobile digivan

Bank kiosks
