

Integrated Digital Public Library Programme

Integrated Digital Public Library Programme is a partnership between Digital Empowerment Foundation, Government Of Telangana, TASK and WE-Hub to revive libraries as modern spaces for knowledge and information delivery, by setting up 33 Digital Excellence Centers in Telangana, engaging people from various marginalized background to operate these centers and further impart information and skills to the beneficiaries.

Objective

- Repositioning District Central Libraries as 21st Century **digitally enabled** information, knowledge, resource, skilling and service hubs for local communities.
- Providing training on **digital literacy**, **STEM** and **digital skills** to the disadvantaged communities in cities and towns.
- Improved and increased digital capacities, skills, resources and support in libraries to provide need-based information, **services to members, citizens and communities.**

Impact Outcomes

- Working with **33 District Central Libraries** in strengthening public library digital infrastructure for skills, training and services.
- Building Capacity of **500 library staff** at all levels on digital skills to deliver library services more efficiently.
- **10,000 youth** provided with skills and training on entrepreneurship and professional development.
- Reaching **1,00,000 beneficiaries** with various skills, trainings and services through Digital Excellence Center set up in the libraries.
