

Safeguarding Rural India Through Critical Digital Literacy

About

The goal is to critically engage with 30 Women Infopreneurs and create a cadre of 480 women skilled in critical digital literacy, enabling them to tackle misinformation and fake news. Additional infopreneurs will establish digital centers to provide essential online services.

Objective

- Empower 480 rural women with critical digital skills.
- Provide affordable access to digital and citizen services in remote areas.
- Enhance the DEF digital literacy curriculum to combat misinformation.
- Nurture 120 (30 + 90) women entrepreneurs who offer digital services and contribute to the critical digital literacy cadre.

Current Impact

90,000 beneficiaries
(target 3,60,000)

Location

4 states & 9 districts
